

SUMMER 2026

CAMP & TRAINING GUIDE

SOCCER MOMS AND DADS

GUIDE SERIES

How to Choose the Right Summer Soccer Camp for Your Child

A practical framework for evaluating camps based on age, experience level, goals, coaching quality, and environment—not hype.

WHY SOCCER DOESN'T HAVE TO BE YOUR ONLY FOCUS THIS SUMMER

Playing multiple sports in the summer builds athleticism, reduces injury risk, and prevents burnout—helping young soccer players return to the fall season healthier, sharper, and more motivated.

Evaluating Soccer Camps Strategically

Finding the right soccer camp starts with understanding your player's needs. Evaluate age fit, experience level, goals, coaching quality, and overall environment to ensure meaningful growth and development.

Focus on fit and development

Selecting the right soccer camp begins with understanding the player. Consider age appropriateness first: younger athletes need structured repetition, creativity, and enjoyment built into sessions, while older players benefit from tactical detail, position-specific instruction, and game-realistic scenarios. Evaluate whether the camp matches the athlete's current experience level. The training intensity, pace, and technical expectations should align with where the player is today while still providing stretch and challenge. Clearly define your athlete's goals; skill development, fitness, position mastery, confidence building, or college preparation. The curriculum should intentionally support those outcomes.

Coaching quality is equally important. Look for qualified staff, strong player-to-coach ratios, organized session plans, and meaningful feedback throughout the day. Effective camps demonstrate progression from activity to activity rather than isolated drills. Finally, assess the overall environment: it should be safe, well-managed, competitive in a healthy way, and encouraging of effort and growth. When age, ability, goals, coaching, and culture align, players gain both competence and confidence.

The Multi-Sport Advantage for Soccer Players

Summer offers an important opportunity for young soccer players to build a broader athletic base—but that does not mean taking the entire season off. Players should continue engaging in light technical work, small-sided pickup games, or structured training to maintain touch, vision, and overall soccer rhythm. Consistency matters. However, integrating other sports alongside soccer can significantly enhance long-term development.

Participating in sports like basketball, tennis, swimming, track, or even martial arts develops coordination, balance, speed, and total-body strength through varied movement patterns. This cross-training reduces repetitive stress on the same muscle groups and joints, lowering the risk of overuse injuries common in year-round single-sport athletes. Just as importantly, competing in new environments with different teammates challenges decision-making and adaptability while preventing mental burnout.

When fall season arrives, athletes who stayed active—while diversifying their activity—often return healthier, sharper, and more motivated. The goal is not specialization at the expense of development, but balanced training that supports durability, enthusiasm, and sustained performance.

Join us for our fourth annual Defenders Only Camp featuring reigning MLS Comeback Player of the Year, 13-year MLS veteran, and Cincinnati's own Nick Hagglund! The staff promises to be star-studded once again...featuring coaches and players from the Big Ten, UWSL, U.S. National Teams, MLS veterans, and College All-Americans. You name it, we have it — both male and female. Join Nick and the coach who helped develop him, former 25-year Division I coach Andy Fleming, for this unique day in June!

Celebrate our Sweet 16 this summer with former 25-year Big Ten and BIG EAST Division I men's coach Andy Fleming! Now in our 16th year, this co-ed camp at Mariemont High School features the region's most talented and diverse staff. Last summer, our alumni appeared in MLS matches, earned Division I offers, were named high school All-Americans, and attended U.S. Soccer National ID Centers. New this year, we now welcome ages 4-13! We pour everything into one unforgettable week to give every player our absolute best. Our Early Bird Special opens on Christmas Day. Learn more at www.andyflemingsocccercamps.com. Ohio's Soccer Parent Community

Ohio Soccer Moms and Dads connects with more than 400,000 soccer parents each month across our website, social media, email newsletters, and community groups. What started as conversations between parents has grown into a statewide network of families sharing experiences, advice, and real-life youth soccer moments.

From rec to club, tryouts to tournaments, camps to college questions, parents turn to OSMD because the content feels familiar and practical. We talk about the

We talk about the things soccer families are actually dealing with—carpool chaos, development questions, sideline behavior, and everything in between.

At its core, Ohio Soccer Moms and Dads is a community. It's parents helping parents navigate youth soccer in Ohio with honesty, perspective, and a little humor along the way.

Individual Growth Requires Extra Work

Supplemental training plays an important role in a young player's long-term development. Team training is designed to prepare a group for competition—focusing on tactics, shape, and collective execution. Because of that, coaches cannot realistically address every individual technical gap within limited weekly sessions. Players who want to accelerate growth must take ownership of their development outside team practice.

Supplemental work can include small-group technical sessions, position-specific training, private instruction, strength and conditioning, or consistent

ball mastery on their own. These focused environments allow for repetition, detailed feedback, and correction that often isn't possible in a full-team setting.

When players commit to additional training, they improve confidence, technical sharpness, and decision-making speed. The responsibility for growth ultimately belongs to the athlete. Team coaches guide performance; individual development requires extra initiative.
